Description: This course is designed for the student to learn:

- v all the countries and capitals in the world
- v all the states and capitals in the US
- v geographic features of each area, such as rivers, mountains, deserts, and bodies of water.
- v the different types of maps, including the terms to identify places on the map or globe
- v geographic terms

The texts used will be from Geography Matters (this company will be at the MTHEA curriculum fair or you can go to their web site):

World Trail Guide Student Notebook CD ROM (Intermeditate)--\$ 18.95;

Intermediate World Atlas -- \$6.95;

Geographical Terms Chart -- \$4.75.

Additional Class Fees:

\$30.00 for additional class supplies (to include a subscription to World magazine)

Required Supplies:

1- 2" 3 ring notebook, 8 subject dividers, 250 4 x 6 file cards (lined on one side), yellow highlighters, glue sticks, 1- 3" ring, and 5 - 1 1/2' rings

Prerequisites: None

Homework Requirements: Approximately 2 - 4 hours of required homework a week. This will include making flashcards for each country and playing on-line geography games. **Please only serious students who will commit to doing this homework.**

Additional Course Information: I truly love Geography, and I hope that your children will grow to know and to love the world in which they live
